Subject: RE: Seeking graphics to illustrate underground injection wells

Michele - I found the following website with graphics illustrating the 6 types of injection wells.

http://water.epa.gov/type/groundwater/uic/wells_drawings.cfm

This may be responsive to at least her first question about graphics. Do we have the UIC inspector training material online or electronically? The one that Steve Platt typically organizes? There may be Class II information that we can pass on.

I am free til 2 pm to have a call with Debbie to learn more about what she is requesting.

Thanks. Kate

Hi Kate,

As we discussed, I want to make sure any contact with DOC OPA is also coordinated through our OPA. If you'd like to make the return call together we can do that, or I can call and advise you of the outcome.

Hi Debbie –

I am out of the office but I think one of the folks I have copied here can help. Thanks

Mike

Hello Mr. Montgomery,

My name is Debbie Maldonado and left you a message on your phone today.

I was referred to you by Marilu Habel, from DOC via my supervisor Teresa Schilling PAO officer at DOC to contact you in regards to well injection information.

We're looking for graphics to illustrate underground injection wells.

Our understanding is the US EPA has put together related training information on injection wells that you may have and hopefully we can use.

You can contact my Supervisor with the information or questions you may have. Her name and email below

Any help would be greatly appreciated.

Thank You... Debbie

Teresa Schilling DOC/ PAO officer
